

Information for the 3rd partners meeting SKILLS4JUSTICE from Ukrainian partners

10th -11th March 2025

Skopje, North Macedonia

I. Completion of the national part of WP3

1. All work was completed on time and in the appropriate way.
2. The national team has analyzed and referenced more than 50 relevant international, foreign and domestic sources of information.
3. The special author's methodology was used to study the supply and demand for employees and qualifications during the wartime.
4. 76 experts were interviewed, including 22 employers from the selected economic activities.
5. All the necessary materials for the Joint Report and comparison of the situation between the 4 countries with the outflow of migrants/refugees were prepared.

IEA Platform

2. Research in Ukraine for WP4

1. Preparation of the analytical materials on the state of internal and external migration during the war: demographic, socio-economic and qualification aspects.
2. It is planned to conduct surveys and interviews with internally displaced persons in at least half of the regions of Ukraine. A survey and a questionnaire based on a standard template for all Project participating countries with country-specific specifications have been prepared. It is planned to cover at least 500 internally displaced persons with the survey and to interview at least 100 persons of the relevant category.
3. It is planned to conduct a survey and to interview Ukrainian migrants who are motivated to return to their homeland under certain conditions. The measures are taken to organize the implementation of these studies in Italy and Lithuania. A survey and a questionnaire based on a standard template for all Project participating countries with country-specific specifications for Ukrainian migrants have been prepared. It is planned to survey at least 100 migrants and to interview at least 30 people of the relevant category.
